PROFILE SUMMARY

Full-Stack Developer with **internship experience** building **scalable and production-ready web applications**. Proficient in **Node.js, Express.js, database management, authentication, and performance optimization**. Collaborative **team player** experienced in **agile environments**.

PROJECTS

Sourcebae-project [GithubLink](#)

- Sourcebae Project is a responsive web application developed using React and Vite.
- objective of this project is to provide a modern, fast, and user-friendly interface
- The application is designed with reusable components and follows a clean frontend architecture.

Context-e-commerce [GithubLink](#)

- Developed/learned an e-commerce web application featuring product browsing, add-to-cart, and checkout flow.
- Implemented responsive UI and basic backend logic for handling products and user orders.
- Built an e-commerce application using React Context API for global state management such as cart and user data.
- Developed an e-commerce web app leveraging React Context API to efficiently manage shared state across components.

Cadbury Chocolate — Cadbury UK [GithubLink](#)

- Developed a Cadbury UK-inspired e-commerce clone showcasing a modern product catalog and interactive UI.
- Built a responsive chocolate store clone with React, emphasizing product browsing and layout design based on Cadbury UK's branding.
- Created a redesigned Cadbury chocolate website clone featuring structured components and user-friendly navigation.
